

10yEn2 Snow Work Monday 19th March 2018

Find a second non-fiction text to link with your first (that you found for homework and were going to bring in today).

Using the two extracts, create your own mock questions 1, 2 and 3. Then, bullet point the material that you could find in the answers. For example, bullet point the differences for Question 2 that you would expect someone answering it to find and then bullet point the language features which could be analysed for Question 3.

Remember:

Question 1= Write down 8 statements about a section of one source, 4 of them must be 'true'.

Question 2= To write the summary of the differences on a certain theme within both sources e.g. if they are both about school, it might be 'Write a summary of the differences about how educational institutions are presented in the two sources'.

Question 3= To write about how language is used within the whole of one source to present [insert a theme/focus].
