

11X2 Biology Snow Work Monday 19th March Mrs Challinor

Use the 'Kerboodle' website to read and make notes on page 230-231 about the ethics of genetic engineering. Also, please note your homework task for the Easter holiday outlined below: -

Homework for over the Easter holiday - *continue with your revision and complete the extended task outlined below.*

Classification

- Read the *Classification* section on Kerboodle, see p250-253.
- Explain what is meant by classification and how organisms are classified. You should include notes on kingdoms, species and the rules for writing scientific names.
- Explain the three-domain system of classification.
- Read the section about classification and evolutionary trees, and then answer the activity '*How to read evolutionary trees*'.

This work should be **completed for the first lesson back** after the holidays, w/c 09/04/18.

If you are having any problems accessing the 'Kerboodle' website, then please check your email as I have attached all the work for you to complete including copies of the relevant text book pages.

Regards,

Mrs C
