

Hi all,

After some deliberation, I have decided to set you today the questions you would have had in our lesson this afternoon. I don't think we can lose any more teaching time by rescheduling the questions lesson.

Please complete in one hour.

Don't panic on question 3! You can discuss new types of crime, Marxist views such as 'disorganised capitalism' and the impact this has had on workers, green crime and other ideas such as global media increasing relative deprivation and so feeding crime.

I will collect this tomorrow. Make sure you have also done the reading from the booklet given out – Is Sociology a Science? – we will be covering positivism and Popper tomorrow.

Crime and Deviance: Topic 3 and 4 Questions

1. Outline two reasons why situational crime prevention strategies may not be effective in reducing crime. (4)
2. Outline three ways in which the media can influence crime and deviance. (6)
3. Read **Item B** below and answer the question that follows:

Item B

Globalisation has created a global criminal economy and transnational networks of organised crime. New opportunities for crime and new types of crime have emerged. Less financial regulations and few state controls over business and finance have contributed to the globalisation of crime, along with other factors such as growing inequality, cultural globalisation and the ideology of consumerism.

Applying material from **Item B** and your knowledge, evaluate sociological views of the effects of globalisation on crime. (30)
