

7XV

Carry out some research on an earthquake of your choice. Complete the following questions either in your book, on lined paper, or on the computer.

1. Where did it happen?
 - a. Name the country and continent.
 - b. Include a map if you can.
 - c. Name the tectonic plates.
 - d. What type of plate boundary is it?
 - e. Describe what happens at this type of plate boundary. A diagram may be useful.
2. Create a fact file about the earthquake
 - a. What were the impacts? (If you can classify them into social/economic/environmental)
