A MESSAGE FROM THE HEADTEACHER

We are justifiably proud of the great achievements of our Sixth Form students at Queen Elizabeth's Grammar School. Our Sixth Form is a thriving, vibrant and active community which provides opportunities for young students to excel academically and mature through involvement in our enrichment programme. There is a friendly and welcoming atmosphere, where the beliefs of hard work, personal courtesy and smart appearance remain priorities.

Our curriculum is broad and balanced and offers a range of qualifications, from traditional A-Level subjects to new and innovative, employer-led vocational courses.

Students leave our Sixth Form to enter the world of work/apprenticeships or choose to continue their studies in Higher Education.

We are determined to remain at the heart of our community; we are an outstanding Sixth Form with the desire, ability and capacity to improve further. We believe you will appreciate the atmosphere and positive relationships between students, parents, staff and the community. We want students to fulfil their potential and more, to be prepared for life after school and to receive the standard of support and care expected of a high performing organisation.

Mr S Garrity
Headteacher

WELCOME TO THE QEGS SIXTH FORM

This is an exciting time in any young person's education, with a wealth of opportunities beginning to open up. We pride ourselves on supporting students to make the most of their time with us and plan for a rewarding future. We want each and every student in our Sixth Form to be successful and well prepared for their next steps. Many of our Year 11 students continue their studies in the Sixth Form and each year we are able to welcome an increasing number of students from other institutions. Students in the Sixth Form study either an A-Level or a vocational programme. All students are placed in a tutor group with one of our dedicated team of specialist Sixth Form tutors. Their tutorial meetings are designed to be regular review meetings, where we can track their progress and ensure that they feel supported during their time with us. We have a very strong senior student leadership team and a number of students are appointed to positions of responsibility; an important one of which is to promote student welfare and to support other students. The Sixth Form Pastoral Team and I are very approachable and operate an 'open door' policy. All tutor groups are based at our Sixth Form Centre which is a separate site, approximately 400m from the main site.

Many subjects are taught on this site, although subjects requiring specialist facilities are delivered at the main site (Art, Music, Performing Arts, Practical Science lessons). Each subject is allocated 5 hours of teaching per week. Students are expected to complete 4 hours of independent study per subject per week. Private study periods are spent in a designated area with PCs, the main Library or an available teaching room.

This prospectus is intended to give you some insight into our Sixth Form at Queen Elizabeth's Grammar School. I hope you find it informative and I very much look forward to meeting you during the coming year.

Mr M Atkins
Assistant Headteacher
- Head of Sixth Form

QEGS SIXTH FORM OFFER

Our students are entering an increasingly competitive world; competition for employment, apprenticeships, university, internships, or work experience is fierce. Exam results alone are not enough to guarantee success. Students need to develop the skills and attributes which will help them to stand out and secure their ambitions. We do focus on students making progress in their chosen academic courses, but we also offer students a broader programme to help them develop the skills they need.

EXTENDED STUDIES

Extended Studies is a core part of our Sixth Form curriculum. All our students follow the course through a programme of taught lessons and weekly tutorials.

What is Extended Studies?

Extended Studies is a compulsory subject through which students are introduced to a wide range of areas of academic enquiry beyond their chosen courses. In addition to extending breadth of learning, students are encouraged to apply knowledge from their chosen academic subjects to the issues we explore. Students make links between their academic subjects and compare and contrast the methods of research employed in those subjects.

Why 'extend' the curriculum?

In addition to studies leading to formal academic qualifications, all students follow a broader curriculum that enhances the Sixth Form learning experience, providing opportunity for character development, and fostering the skills necessary for productive independent learning. Extended Studies is core to fulfilling this aim.

The Extended Studies Programme aims to:

- Assist students in the development of key written communication skills
- Provide opportunities for the development of oral presentation skills
- Prepare students for future learning
- Increase breadth of learning

Extended Studies Essays and Projects:

As well as developing key skills of communication, we aim to give students the opportunity and encouragement to read and write about the subjects they may wish to study at university. This leads to a well informed university application and personal statement.

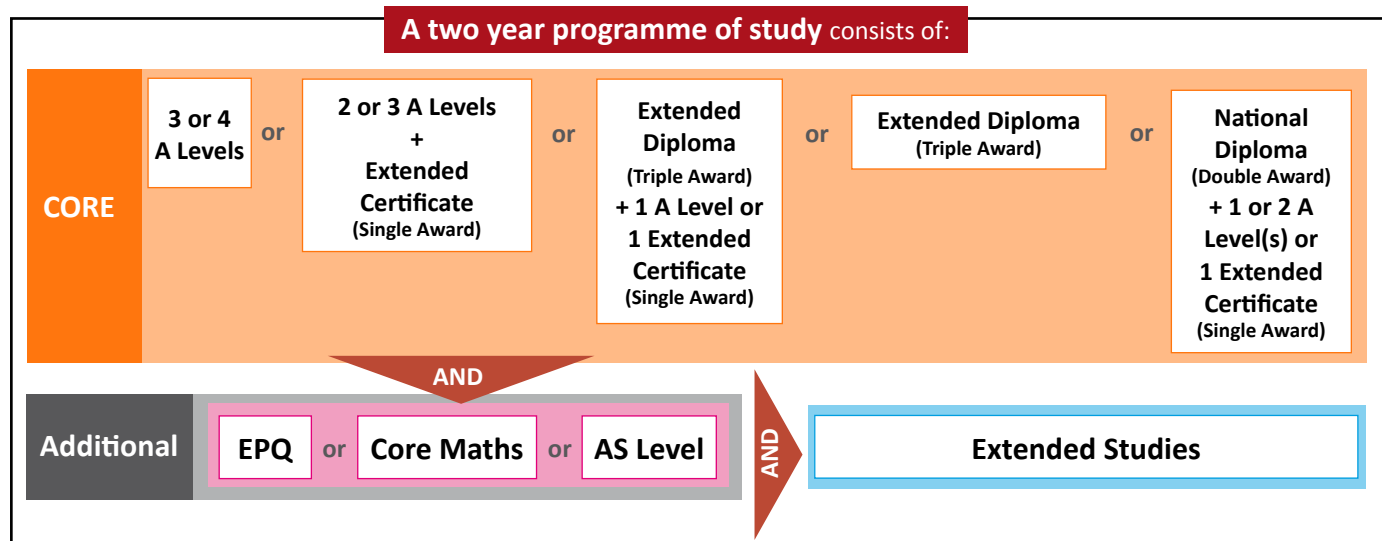

QEGS FUTURES AWARD

We strongly believe that it is hugely beneficial for our students to get involved in volunteering their time to help in school or the local community. This not only promotes the acquisition of vital employability skills, but is also a valuable personal experience. We have developed our own award with the support of the University of Derby and local employer Shepherd PR, to promote and reward students for their commitments to volunteering and work based learning. We expect ALL students at QEGS to complete the Award at Foundation Level. This requires a minimum of 20 hours voluntary work, attendance at 3 careers workshops (during our tutor time) and the submission of a CV. The award has 2 further levels and, at Advanced Level, the focus is on leadership development.

A number of local charities are very keen for our students to get involved, as well as there being many opportunities to volunteer at QEGS. A number of our students are already active in their local community and we are keen to recognise this through the Futures Award. The focus is on developing and reflecting on the vital skills gained through these experiences.

CHOOSING YOUR PROGRAMME OF STUDY

A-LEVEL PROGRAMME

All of the A-Level subjects we offer at QEGS are linear qualifications with the assessment at the end of two years. The majority of students do choose to study 3 A-Levels, but it is possible to study 4. This will form their core programme, but we believe it is vitally important students support this by taking another level 3 qualification alongside. This enables students to broaden their knowledge and understanding, develop vital skills, as well as gaining valuable UCAS points to enhance their applications. This will also be a linear option, taken over the two years to offer balance to a student's programme. It could be an AS in an additional subject, Core Maths, or an Extended Project Qualification (EPQ).

VOCATIONAL PROGRAMME

We now offer a number of BTEC Level 3 Nationals here at QEGS. These are equivalent in standard to A-Levels and provide specialist, work-related learning in a number of vocational sectors. They provide a more practical, real-world way of learning and their value is widely recognised by teaching professionals, employers, higher education and students.

As of 2016 these require some external assessment. (See individual subjects for details). It is possible to combine these with A-Level(s).

ENTRY REQUIREMENTS

To follow a programme of A-Level subjects, students must have a minimum average grade of **4.5 GCSE points** from at least six GCSEs, which must include English and Mathematics (at grade 4 or above). To follow a Vocational programme students should have achieved an average of a 4 from their best 6 GCSEs, normally including English and Mathematics (at grade 4). It is possible to re-sit either Mathematics or English GCSE alongside a Level 3 programme. This individual programme will be agreed with Mr Atkins.

- To study A-Level Mathematics it is necessary to have at least grade **7** at GCSE Mathematics.
- To study A-Level Science it is necessary to have a grade **6** in the appropriate GCSE separate Science or a **6** in both core and additional Science; it is also necessary to have a grade **6** at GCSE Mathematics.
- In order to study a subject at A-Level that has been studied at GCSE it is necessary to have at least a grade **5** in that subject.
- GCSE equivalence grades at **4** or above, from courses such as BTECs can only be counted as one of the six grades required for entry to the Sixth Form. These will not be sufficient to study Mathematics or Science at A Level.
- **All students** must have a good record of conduct and be comfortable with the values and the ethos of the academy. Students who do not maintain a good record of conduct will be refused entry to the Sixth Form. All students will be interviewed and references sought for external candidates.
- All students must apply for a place in the Sixth Form by completing an application form which sets out their subject choices and career plans. www.qegs.link/SixthFormApply
- If a student achieves a U Grade in the Y12 January mock examinations they will be required to undertake the AS exam in that subject during the summer examination window.
- We require any student who does not have a grade **4** in an English or Maths to resit to attempt to get a grade **4**. The Government are likely to change the standard pass to a grade **5** in the near future. With this in mind, we do not want our students to be disadvantaged when they come to employment because they do not have what employers see as the current standard pass, so we encourage students without a grade **5** to resit to a grade **5**.
- The above entry criteria will guarantee entry to the Sixth Form, students who do not meet the above criteria due to mitigating circumstances will be considered on a case by case basis.

DRESS CODE

The principle of 'business dress' underpins our dress code. Students are expected to look smart and set an example for the rest of the academy. Failure to meet this requirement will result in a student being sent home and asked to change before returning to the Sixth Form.

GIRLS

- Plain black business suit/dress with jacket
- Businesslike blouse with a collar
- Academy pin badge (available from QEGS)
- Shades of Red or Black V-neck sweater can be worn under a jacket
- Black or skin coloured tights
- Black or Brown businesslike shoes (with sensible heel)

BOYS

- Plain black business suit
- Businesslike shirt
- Academy tie (available from QEGS)
- Shades of Red or Black V-neck sweater can be worn under a jacket
- Black or Brown businesslike shoes

Any student who wishes to identify with an alternative gender should follow the appropriate dress code. Students are expected to look smart and set an example for the rest of the School. Any jewellery worn must be discreet. No body studs are permitted except for a single stud through each ear.

CAREERS, EDUCATION AND GUIDANCE

The academy has a successful and well-established careers, education and guidance system, and this is continued into the Sixth Form. Students are given extensive support and guidance concerning further and higher education applications and with seeking employment/apprenticeships.

A Careers Convention is held at the academy once every two years, and students are made aware of any other local or national conventions. Organised trips to University Open Days and/or a UCAS convention are offered to students. A Career Tutorial programme is run throughout both Years 12 and 13 on a weekly basis and includes: assemblies, quizzes, CV building, volunteering events, and talks from external visitors. These talks are delivered by experts in their field

and cover advice on careers, apprenticeships and universities - including help on personal statements for their UCAS applications and student finance.

At the end of Year 12 students are given two weeks flexible study which they can use to seek out useful and relevant work experience for their chosen career path. Students can benefit greatly from these experiences as it can generate new skills and allow them to explore possible career paths. Previous students have chosen to take this opportunity to work outside of their local area and, in some cases, venture to countries outside of the UK. This time in work placement can greatly enhance their future applications to higher education or employment.

FACILITIES

- Sixth Form Centre
- Private Study Area from 7.30am - 5.30pm
- Common Room
- Food Service from 8.30am - 2.30pm
- IT Rooms
- WiFi
- Dedicated Sixth Form Science Lab
- Dedicated Sixth Form Art Studio
- Use of main site facilities including:
 - » Well-resourced Library
 - » Performing Arts Studio
 - » CAD/CAM and Technology Areas
 - » Sports Hall

SAFEGUARDING

QEGS fully recognises its responsibility for child protection and safeguarding and meets the statutory requirements. The Designated Senior Officer for safeguarding at QEGS is:

Mr M Bawden

(Assistant Headteacher).

ART, CRAFT & DESIGN

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mrs D Davis (davis@queenelizabeths.derbyshire.sch.uk)

Course Content

Component 1

Component 1 is a workshop skills based internally assessed unit, which will continue until January.

Students are set a summer homework before starting the course which is used to inspire the theme of the workshops- this has previously included Surroundings, Decay and Destroy and Sky High. The workshops allow the students the freedom to explore a wide range of disciplines including drawing, photography, textiles/fashion, ceramics, print, painting and digital art. This allows them the confidence to specialise later in the course.

The four objectives that must be addressed in all coursework and externally set projects are:

- Developing ideas demonstrating analytical and critical understanding.
- Experimenting with and selecting appropriate materials.
- Recording observations and insights.
- Presenting, personal, informed and meaningful outcomes

Component 2

Component 2 is an internally set assignment and will last from February until May. Candidates select their own theme and specialisms. During the project students will complete 5 hours of unaided, supervised time as a mock exam. All work produced throughout and in the controlled session will be internally assessed and externally moderated by AQA.

Component 3

Component 3 asks students to produce a personal investigation based on an idea, concept or theme. They must continue to produce practical work related to their chosen topic and must also work within the same title that was chosen at AS level. The written component should be no less than 1000 words and no more than 3000. This unit is marked internally and then moderated externally by AQA.

Component 4

Component 4 is an externally set assignment and candidates select one from eight starting points. Students will be expected to produce a body of preparatory work and a set of resolved outcomes. Towards the end of the unit students will be required to complete 15 hours of unaided, supervised time, the first 3 hours of which should be consecutive. All work including the controlled assignment will be assessed internally and then moderated by AQA

Assessment

Comp.	Title	Assessment	A Level
1	Themes to be set	Non-exam assessment/portfolio Internally assessed	-
2	Individually chosen themes	Portfolio + 5 hour mock practical test Internally assessed externally moderated	-
3	Individually chosen themes	Portfolio + up to 3000 word study relating to practical. Internally assessed externally moderated	60%
4	Externally set themes	Portfolio + 15 hour to produce major outcome(s) Internally assessed externally moderated	40%

ART & DESIGN - BTEC NATIONAL DIPLOMA

DOUBLE AWARD

Course Length: Studied over two years
Examination Board: Pearson
Course Leader: Mrs D Davis (davis@queenelizabeths.derbyshire.sch.uk)

The Art & Design BTEC National Diploma is an applied general qualification which is equivalent to 2 A-Levels. This course provides learners with the opportunity to explore an in-depth vocational approach to the study of Art and Design, helping to prepare students for University and a career in the Creative Industries.

There are many benefits of the course, including an exciting range of units available for students, which will support them in the creation of a very individual and diverse portfolio of work. Each unit is designed to allow students to demonstrate their skills and knowledge in a real-life scenario they are likely to encounter in the workplace. There will be opportunities for learners to work, to live, industry-set briefs, wherever possible, to encourage high levels of professional practice.

Students will study 8 units over 2 years, including 6 mandatory units and a further 2 optional units. Some mandatory units are set and marked externally by the Examination Board, whilst the majority are internally marked. Optional units allow learners to gain knowledge across a broad range of Art and Design disciplines such as: Photography, Graphics, Interactive Design, Fine Art, 3D Design, Textiles, Fashion and Design Craft. Most units require students to submit a portfolio of work. However, the Critical and Contextual Studies unit requires a written submission in response to a research brief set by the Examination Board.

Assessment				
Category	Title	Assessment	GLH (%)	Evidence
Mandatory Units (6)	Visual Recording and Communication	External - 3 hours	120 (17%)	Portfolio of work
	Critical and Contextual Studies in Art and Design	External - 5 hours	90 (13%)	Written submission
	Developing & Realising Creative Intentions		120 (11%)	Portfolio of work
	The Creative Process	Internal	120 (11%)	
	Materials, Techniques and Processes in Art and Design		90 (8%)	
	Developing an Art and Design portfolio		90 (8%)	
Optional Units (8) Students choose 2 optional units	<ul style="list-style-type: none"> • Photographic materials, techniques and processes • Graphics materials, techniques and processes • Interactive Design materials, techniques and processes • Fine Art materials, techniques and processes • 3D Design materials, techniques and processes • Textiles materials, techniques and processes • Fashion materials, techniques and processes • Design craft materials, techniques and processes 	Internal	60 (8%)	Portfolio of work

ART & DESIGN - BTEC LEVEL 3 EXTENDED DIPLOMA

TRIPLE AWARD

Course Length: Studied over two years

Examination Board: Pearson

Course Leader: Mrs D Davis (davis@queenelizabeths.derbyshire.sch.uk)

Pearson BTEC Level 3 National Extended Diploma (1080 Guided Learning Hours - Equivalent of 3 A Levels)

The Art & Design BTEC National Extended Diploma is an applied general qualification which is equivalent to 3 A-Levels. The main difference between the Double and Triple award is the total number of mandatory and optional units studied over two years.

Students will study 13 units, including 7 mandatory units and a further 6 optional units as part of the Extended Diploma. A broader range of optional units are available to students opting for this course, including more specialised Photography, Graphics, Textiles, Fine Art, Fashion and Interactive Design units.

Assessment				
Category	Title	Assessment	GLH* (%)	Evidence
Mandatory Units (7)	Visual Recording and Communication	External - 3 hours	120 (11%)	Portfolio of work
	Critical and Contextual Studies in Art and Design	External - 5 hours	90 (8%)	Written submission
	Managing a Client Brief		120 (11%)	Portfolio of work
	Developing & Realising Creative Intentions		120 (11%)	
	The Creative Process	Internal	90 (8%)	
	Materials, Techniques and Processes in Art and Design			
	Developing an Art and Design portfolio			
Optional Units (37) Students choose 6 optional units	Photography Units Studio, location, digital, non-digital, etc	Internal	60 (8%)	Portfolio of work
Graphics Units Typography, branding, graphic illustration, etc				
Interactive Design Units Conceptual art for games, animation, web design, etc				
Fine Art Units Painting, drawing, printmaking, etc				
3D Design Craft Model making, 3D techniques, etc				
Textiles Units Woven, constructed textiles, surface design, digital textiles				
Fashion Fashion promotion, Fashion design, pattern development, etc				
			<i>* Guided Learning Hours</i>	

* Guided Learning Hours

BIOLOGY

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mr R Meecham (meecham@queenelizabeths.derbyshire.sch.uk)

Course Content

Year 1

Topics covered:

1. Biological molecules
2. Cells
3. Organisms exchange substances with their environment
4. Genetic information, variation and relationships between organisms

Year 2

Topics covered:

5. Energy transfers in and between organisms
6. Organisms respond to changes in their internal and external environments
7. Genetics, populations, evolution and ecosystems
8. The control of gene expression

Practical work:

Students will undertake at least 12 practical activities across the A-Level course to CPAC standards, as directed by the Examination Board. These will be internally assessed and provide the opportunity to learn and use practical skills to link theory with practice, so deepening knowledge and understanding. Teachers will 'endorse' the practical work which, if passed, will be reported on the A-Level Certificate.

In addition, 15% of the A-Level marks on all of the written papers will be allocated to practical knowledge and understanding.

Assessment:

Three written examination papers at the end of the 2 year A-Level Course.

Mathematical requirements:

10% of the marks in the written A-Level Biology papers will assess mathematical skills at the higher tier GCSE level

Assessment

Paper	Title	Assessment	A Level
1	Topics 1-4 including relevant practical skills	Written Exam: 2hr	35%
2	Topics 5-8 including relevant practical skills	Written Exam: 2hr	35%
3	Topics 1-8 including relevant practical skills	Written Exam: 2hr	30%

BUSINESS

Course Length: Studied over two years
Examination Board: Pearson Edexcel
Course Leader: Mr L Walker (walkerl@queenelizabeths.derbyshire.sch.uk)

Course Content	
<p>Theme 1: Marketing and people</p> <p>Students will develop an understanding of:</p> <ul style="list-style-type: none"> • meeting customer needs • the market • marketing mix and strategy • managing people • entrepreneurs and leaders <p>Theme 2: Managing business activities</p> <p>Students will develop an understanding of:</p> <ul style="list-style-type: none"> • raising finance • financial planning • managing finance • resource management • external influences 	<p>Theme 3: Business decisions and strategy</p> <p>This theme develops the concepts introduced in Theme 2. Students will develop an understanding of:</p> <ul style="list-style-type: none"> • business objectives and strategy • business growth • decision-making techniques • influences on business decisions • assessing competitiveness • managing change <p>Theme 4: Global business</p> <p>This theme develops the concepts introduced in Theme 1. Students will develop an understanding of:</p> <ul style="list-style-type: none"> • globalisation • global markets and business expansion • global marketing • global industries and companies (multinational corporations)

Assessment			
Paper	Title	Assessment	A Level
1	Marketing, People and Global Businesses Themes 1&4	Written Exam: 2hr	35%
2	Business Activities, Decisions and Strategy Themes 2&3	Written Exam: 2hr	35%
3	Investigating Business in a Competitive Environment Themes 1-4	Written Exam: 2hr	30%

BUSINESS - BTEC LEVEL 3 EXTENDED DIPLOMA

TRIPLE AWARD

Course Length: Studied over two years
Examination Board: Pearson Edexcel
Course Leader: Mr L Walker (walkerl@queenelizabeths.derbyshire.sch.uk)

Pearson BTEC Level 3 National Extended Diploma (1080 Guided Learning Hours - Equivalent of 3 A-Levels)

Course Content

How is the course assessed?

By nature BTECs provide a more practical, real-world approach to learning alongside a theoretical background, giving learners the knowledge, understanding and skills that they need to prepare for employment. The course is primarily based on student assignments. There are a total of 13 units to complete. Four of these are externally assessed with the rest being internally assessed. Assignments are graded, "pass", "merit" or "distinction". The internally assessed assignments are set by QEGS and matched to local and learner needs.

What topics are included?

- Exploring Business
- Developing a Marketing Campaign
- Personal and Business Finance
- Managing an Event
- International Business
- Principles of Management
- Business Decision Making

Plus 6 optional units

How will the course be taught?

By a mixture of taught lessons, independent research and assignments, presentations, role play, group work, visiting speakers and industry visits and the use of work experience.

Why should I choose the BTEC in Business at QEGS?

The BTEC offers a new pathway for studying Business at QEGS alongside our Business Studies A-Level. The Department has a long history of excellent grades at A-Level and is looking to continue that success with students who would prefer to study a course that isn't wholly exam-based and allows them to specialise in one subject, rather than three. The course allows you to gain a far deeper and broader knowledge of business. Whether you wish to study further at University, go into employment or start your own business, if you know that business is the subject for you, why not start studying it now?

How is it different from A-Level Business Studies?

BTEC offers students the chance to concentrate on one subject while at Sixth Form, rather than three or four separate A-Levels. It is only partially exam-based. The course is the equivalent of three A-Levels and is seen by universities and employers as equivalent in rigour and UMS points as the more traditional route of A-Levels.

Assessment

Types of assessment	No. of units
Assignment - Set and marked internally	9
Task - Set and marked by Pearson	3
Written Exam - Set and marked by Pearson	1

CHEMISTRY

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mr R Meecham (meecham@queenelizabeths.derbyshire.sch.uk)

Course Content

AS Level content:

Paper 1 - Physical & Inorganic Chemistry

- **Physical Chemistry:**
 - Atomic structure
 - Energetics
 - Chemical equilibria
 - Oxidation, reduction and redox equations
- **Inorganic Chemistry**

Paper 2 - Physical & Organic Chemistry

- **Physical Chemistry:**
 - Amount of substance
 - Chemical equilibria and Le Chatelier's principle
- **Organic Chemistry**

Practical work:

Students will undertake practical activities across the AS Level course, as directed by the Examination Board. These will be internally assessed and provide the opportunity to learn and use practical skills to link theory with practice, so deepening knowledge and understanding. Teachers will 'endorse' the practical work, which if passed, will be reported on the AS Level Certificate. In addition, knowledge of practical skills will be assessed in the written papers.

A Level content:

Paper 1 - Physical & Inorganic Chemistry

- **Physical Chemistry:**
 - Atomic structure
 - Energetics
 - Chemical equilibria
 - Thermodynamics
 - Equilibrium constant K_c for homogeneous systems
 - Acids and bases
- **Inorganic Chemistry**

Paper 2 - Physical & Organic Chemistry

- **Physical Chemistry:**
 - Amount of substance
 - Chemical equilibria and Le Chatelier's principle
 - Rate equations
- **Organic Chemistry**

Paper 3 - Physical, Inorganic & Organic Chemistry

Practical work:

Students will undertake at least 12 practical activities across the A-Level course, as directed by the Examination Board. These will be internally assessed and provide the opportunity to learn and use practical skills to link theory with practice, so deepening knowledge and understanding. Teachers will 'endorse' the practical work, which if passed, will be reported on the A-Level Certificate. In addition, knowledge of practical skills will be assessed in the written papers.

Assessment

Paper	Title	Assessment	A Level
1	Physical & Inorganic Chemistry	Written Exam: 2hr	35%
2	Physical & Organic Chemistry	Written Exam: 2hr	35%
3	Tests across the whole specification and includes questions on practical techniques and data analysis and multiple choice.	Written Exam: 2hr	30%

COMPUTER SCIENCE

Course Length:	Studied over two years
Examination Board:	OCR
Course Leader:	Mr R Bowbanks (bowbanks@queenelizabeths.derbyshire.sch.uk)

Why Study Computer Science?

The UK has the second-biggest ICT sector in Europe (after Germany), worth an estimated £81bn. Every industry uses computers so naturally computer scientists can work in any. Problems in science, engineering, health care, and so many other areas can be solved by computers. It's up to the computer scientist to figure out how, and design the software to apply the solution.

The most important aspect of computer science is problem solving, an essential skill for life. Students study the design, development and analysis of software and hardware used to solve problems in a variety of business, scientific and social contexts.

Course Content

Component 01: Computer systems

This component will introduce students to the internal workings of the Central Processing Unit (CPU), the exchange of data and will also look at software development, data types and legal and ethical issues. It is expected that learners will draw on this underpinning content when studying computational thinking, developing programming techniques and devising their own programming approach in the Programming project component.

Component 02: Algorithms and programming

This component will incorporate and build on the knowledge and understanding gained in the Computer systems component (01). In addition, students should: understand what is meant by computational thinking, understand the benefits of applying computational thinking to solving a wide variety of problems, understand the principles of solving problems by computational methods, be able to use algorithms to describe problems and be able to analyse a problem by identifying its component parts.

Component 03: Programming project

Students will be expected to analyse, design, develop, test, evaluate and document a program written in a suitable programming language. The underlying approach to the project is to apply the principles of computational thinking to a practical coding problem. Students are expected to apply appropriate principles from an agile development approach to the project development.

Assessment

Comp.	Title	Assessment	A-Level
Component 01	Computer systems	Written Exam Paper: 2.5hr	40%
Component 02	Algorithms and programming	Written Exam Paper: 2.5hr	40%
Component 03	Programming Project	Non-Exam Assessment	20%

CREATIVE DIGITAL MEDIA TRIPLE OR SINGLE AWARD

Course Length: Studied over two years **Examination Board:** Pearson

Course Leader: Mr J Illsley (illsleyj@queenelizabeths.derbyshire.sch.uk)

Pearson BTEC Level 3 National Extended Diploma (1080 Guided Learning Hours - Equivalent of 3 A-Levels)

Pearson BTEC Level 3 National Extended Certificate (360 Guided Learning Hours - Equivalent of 1 A-Level)

Course Content

The UK Government has reported that the creative industries are worth over £8 million an hour to the UK economy. Across a diverse range of industries, such as film and television, digital publishing and digital games, the UK holds the talent and resources that produce some of the most innovative and imaginative media in the world. These industries are some of the fastest growing in the UK and are one of the areas in which the UK leads the rest of the world.

The Pearson BTEC Level 3 National Extended Diploma in Creative Digital Media Production is a triple award and equivalent to three A Levels. This course provides learners with the opportunity to explore an in-depth vocational approach to their study; helping to prepare students for university and possibly a career in the creative industries. We also offer the opportunity to study the National Extended Certificate, which is equivalent to one A Level.

Students will study 13 units over two years including seven mandatory units (1 optional and 3 mandatory in the Extended Certificate). There is a mixture of internal and external assessment. Over the units of mandatory content, students develop the underpinning knowledge and skills needed for the media sector.

They will investigate the media industry, looking at the influences of technology and audiences, and how media is affected by them. They develop research skills through their investigations, and understand the differences between primary and secondary research techniques, and quantitative and qualitative responses. Students learn how to analyse and deconstruct media representations, and develop the communication and planning skills that allow ideas to be produced.

Students choose optional units in sectors such as television, film, digital games and interactive media. This enables them to acquire knowledge of various media and media genres, which extends their understanding of the sections of the media and will support them in the creation of a very individual and diverse portfolio of work.

There will be opportunities for learners to work alongside industry experts to develop responses to live, real-world briefs, creating solutions for real clients and ensure they are exposed to and work to established industry practices.

Assessment

	Title	GLH**	Assessment
Mandatory Units	Media Representations*	90	External
	Working in the Creative Media Industry	90	Internally Assessed and Externally Moderated
	Digital Media Skills	120	External
	Pre-Production Portfolio*	90	Internally Assessed and Externally Moderated
	Subject Specialist Investigation	120	External
	Media Campaigns	90	Internally Assessed and Externally Moderated
	Responding to a Commission*	120	External
Optional Units	A range of units covering areas including film, radio, website production, digital games, digital graphics, photography and animation.	60	Internally Assessed and Externally Moderated

* **Mandatory Units in the National Extended Certificate**

** **Guided Learning Hours**

PERFORMING ARTS SINGLE AWARD

Course Length: Studied over two years

Examination Board: Edexcel

Course Leader: Mrs S Corboz (corboz@queenelizabeths.derbyshire.sch.uk)

Pearson BTEC Level 3 National Extended Certificate (360 Guided Learning Hours - Equivalent of 1 A-Level)

Course Content

The BTEC qualification in Performing Arts aims to prepare learners for professional work in the performing arts sector and is suitable for progression to BTEC Higher National Diploma or Higher Education.

The BTEC Level 3 Extended Certificate provides students with the opportunities of a range of skills and techniques, personal skills and attributes essential for successful performance in working life.

Year One builds on skills and techniques developed at GCSE focusing on the performing arts.

- Investigating Practitioners Work
- Developing skills and techniques for live performance

Year Two prepares learners for employment in the Performing Arts sector refining skills and techniques.

- Group performance workshop
- Optional unit: acting, contemporary dance or musical theatre

Additional optional units are available to meet the demands of progression to Higher Education through either Dance or Drama.

The BTEC Extended Certificate in Performing Arts single award is equivalent to one A-Level and attracts UCAS points.

Assessment

Unit Category	Unit No	Titles	Assessment	Coursework
Compulsory	1	Investigating Practitioners' Work	Externally Assessed	Written
	2	Developing skills and techniques for live performance	Internally Assessed	Written and Practical
	3	Group Performance Workshop	Externally Assessed	Written and Practical
Optional Units			Internally Assessed	Written and Practical

ECONOMICS

Course Length:	Studied over two years
Examination Board:	Pearson Edexcel
Course Leader:	Mr L Walker (walkerl@queenelizabeths.derbyshire.sch.uk)

Course Content

<p>Theme 1: Introduction to markets and market failure</p> <p>This theme focuses on microeconomic concepts. Students will develop an understanding of:</p> <ul style="list-style-type: none"> ▪ nature of economics ▪ how markets work ▪ market failure ▪ government intervention <p>Theme 2: The UK economy – performance and policies</p> <p>This theme focuses on macroeconomic concepts. Students will develop an understanding of:</p> <ul style="list-style-type: none"> ▪ measures of economic performance ▪ aggregate demand ▪ aggregate supply ▪ national income ▪ economic growth ▪ macroeconomic objectives and policy 	<p>Theme 3: Business behaviour and the labour market</p> <p>This theme develops the microeconomic concepts introduced in Theme 1 and 2 and focuses on business economics.</p> <p>Students will develop an understanding of:</p> <ul style="list-style-type: none"> • business growth • business objectives • revenues, costs and profits • market structures • labour market • government intervention <p>Theme 4: A global perspective</p> <p>This theme develops the macroeconomic concepts introduced in Theme 2 and applies these concepts in a global context. Students will develop an understanding of:</p> <ul style="list-style-type: none"> • international economics • poverty and inequality • emerging and developing economies • the financial sector • role of the state in the macroeconomy
---	--

Assessment

Paper	Title	Assessment	A Level
1	Markets and business behaviour <i>Themes 1 and 3</i>	Written Exam: 2hr	35%
2	The national and global economy <i>Themes 2 and 4</i>	Written Exam: 2hr	35%
3	Microeconomics and macroeconomics <i>Themes 1-4</i>	Written Exam: 2hr	30%

ENGINEERING

BTEC LEVEL 3 NATIONAL EXTENDED CERTIFICATE

Course Length: Studied over two years
Examination Board: Pearson
Course Leader: Mr M Kershaw (Kershaw@queenelizabeths.derbyshire.sch.uk)

Equivalent in size to one A Level. 4 Units of which 3 are mandatory content (83%) and 2 are external assessment (67%).

Why study Engineering?

An engineering based education will allow exposure to a variety of technical subjects and skill sets. You will be able to develop skills that are transferable to most industries such as problem solving, decision making, innovation, project management, team working and communication.

Where can Engineering take me?

The world is a small and diverse place. Global, but at the same time dividing people like nothing else. Engineering offers skills and knowledge that can be applied in any country or culture around the world today. Everything you use, eat, drink has an engineering input and influence.

Possible subject combinations: Science, Mathematics, Further Mathematics and Engineering.

Course Content	
<p>Unit 1 - Engineering Principles In this unit learners will apply mathematical and physical science principles to solve electrical, electronic and mechanical based engineering problems. Assessment will focus on learners' ability to solve problems that require individual and combined application of mathematical techniques, and electrical, electronic and mechanical principles to solve engineering problems. The unit will be assessed through one paper of 80 marks lasting 2 hours that will be set and marked by Pearson.</p> <p>Unit 2 - Delivery of Engineering Processes Safely as a Team In this unit learners will explore how processes are undertaken by teams to create engineered products or to deliver engineering services safely. This unit will enable you to apply the knowledge and understanding you have gained in Unit 1-Engineering Principles. In this unit you will:</p> <ul style="list-style-type: none"> Examine common engineering processes to create products or deliver services safely and effectively as a team Develop two-dimensional computer-aided drawings that can be used in engineering processes Carry out engineering processes safely to manufacture a product or to deliver a service effectively as a team 	<p>Unit 3-Engineering Product Design and Manufacture In this unit learners will explore engineering product design and manufacturing processes and will complete activities that consider function, sustainability, materials, form and other factors. The unit will be assessed by a set task of 60 marks provided by Pearson and completed under supervised conditions. Part A is given to learners one week before Part B is scheduled. Learners will be given a case study and produce independent research. Part B is a supervised assessment period of eight hours within a two-week assessment period timetabled by Pearson.</p> <p>Unit 41- Manufacturing Secondary Machining Processes In this unit you will:</p> <ul style="list-style-type: none"> Examine the technology and characteristics of secondary processes that are widely used in industry Set up traditional secondary processing machines to manufacture a component safely Carry out traditional secondary machining processes to manufacture a component safely Review the processes used to machine a component and reflect on personal performance <p>This unit will be assessed through a number of practical and written assignments submitted within a deadline.</p>

Assessment			
Unit	Title	Assessment	
1	Engineering Principles (Mandatory)	2hr paper (External)	120 GLH
2	Delivery of Engineering Processes Safely as a Team (Mandatory)	Submitted work to deadlines. (Internal)	60 GLH
3	Engineering Product Design and Manufacture (Mandatory)	2 part (A+B) set task (External)	120 GLH
41	Manufacturing Secondary Machining Processes	Submitted work to deadlines (Internal)	60 GLH

ENGINEERING

QEGS LEVEL 3 ENGINEERING WORKSHOP PROGRAMME

Course Length: Studied over one year (90hrs)
Course Leader: Mr M Kershaw (Kershaw@queenelizabeths.derbyshire.sch.uk)

Why study this Engineering Workshop Programme?

Our own in-house Engineering Workshop Programme will allow exposure to a variety of technical areas and skill sets used on a typical shop floor engineering environment. You will become competent in workshop practice including marking out, sheet metal fabrication, MIG welding, CNC, CAD design and secondary machining such as lathe work and milling machine operation. This programme has been introduced to act upon feedback from Industry experts to address some of the key skill sets missing from applicants entering into Engineering as a profession from further education.

Where can this Programme take me?

Your completed Programme gives you the relevant skill sets to support an engineering apprenticeship application. The Workshop Programme also provides you workshop skills and experience to support your Engineering degree as it is now common practice for degree courses to not include any workshop practice in the subject. This is a major concern as students miss out on vital 'shop floor' practical skill sets prospective employers require.

Possible subject combinations: Science, Mathematics, Further Mathematics and L3 Engineering Workshop Programme.

Course Content	
<p>The topics studied are:</p> <p>1) Manufacturing Secondary Machining Processes In this unit you will:</p> <ul style="list-style-type: none"> Examine the technology and characteristics of secondary processes that are widely used in industry Set up traditional secondary processing machines to manufacture a component safely Carry out traditional secondary machining processes to manufacture a component safely Review the processes used to machine a component and reflect on personal performance <p>2) Technical Drawing In this unit Orthographic projection to BS308 and BS8888 standard / Oblique and Isometric drawing will be covered. You will:</p> <ul style="list-style-type: none"> Develop two-dimensional computer-aided drawings that can be used in engineering processes Develop three-dimensional computer-aided designs to be used in CNC engineering processes Carry out engineering processes safely to manufacture a product from your drawings (additive and reduction manufacturing) 	<p>3) Engineering Product Design and Manufacture In this unit learners will explore engineering product design and manufacturing processes and will complete activities that consider function, sustainability, materials and form. You will:</p> <ul style="list-style-type: none"> Learn about the properties and characteristics of a range of ferrous / non-ferrous / polymer and composite materials Engage with the 5 steps of the Engineering design and make process Carry out a design and make exercise <p>4) Basic Bench work skills In this module you will:</p> <ul style="list-style-type: none"> Learn how to measure and mark out across a range of materials accurately using a range of tools and equipment such as angle plate / V-block / surface plate / surface gauge Apply correct technique to cut and work with both hand tools and power tools such as scribes, jenny calipers, angle grinders, air saws, nibblers Understand the requirement for appropriate fasteners, fixtures and components, screw thread systems, screw thread nomenclature. MIG welding / spot welding fabrication Apply safe working procedure as to HASAWA law
<p>All 4 topics within the workshop programme will be assessed through a number of practical and written assignments. A photographic record and written log book will be undertaken by each student to show potential employers and institutions to support A Level subject work.</p>	

Assessment			
Topic	Title	Assessment	
1	Manufacturing Secondary Machining processes	Submitted work to deadlines set	30 GLH
2	Technical Drawing	Submitted work to task set	15 GLH
3	Engineering Product Design and Manufacture	Submitted project to deadline set	10 GLH
4	Basic Bench working skills	Submitted work to practical tasks set	35 GLH

ENGLISH LANGUAGE

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mrs N Brown (brownnn@queenelizabeths.derbyshire.sch.uk) Miss B Angris (angris@queenelizabeths.derbyshire.sch.uk)

Course Content

Paper 1: Language and the Individual

- Textual variations and representations
- Methods of language analysis are integrated into the activities

Paper 2: Language Varieties

- Language diversity
- Writing skills
- Methods of language analysis are integrated into the activities

Paper 1: Language, the Individual and Society

- Textual variations and representations
- Children's language development (0-11 years)
- Methods of language analysis are integrated into the activities

Paper 2: Language Diversity and Change

- Language diversity and change
- Language discourses
- Writing skills
- Methods of language analysis are integrated into the activities

Non-exam assessment: Language in Action

- Language Investigation
- Original Writing
- Methods of language analysis are integrated into the activities

Assessment

Paper	Title	Assessment	A Level
1	Language, the individual and society	Written Exam	40%
2	Language diversity and change	Written Exam	40%
-	Language in Action	Non-exam assessment	20%

ENGLISH LITERATURE

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mrs N Brown (brownnn@queenelizabeths.derbyshire.sch.uk) Miss B Angris (angris@queenelizabeths.derbyshire.sch.uk)

Course Content	
<p>Paper 1: Literary genres: drama</p> <ul style="list-style-type: none"> Aspects of tragedy: study of one Shakespeare play and one further drama text <p>Paper 2: Literary genres: prose and poetry</p> <ul style="list-style-type: none"> Aspects of tragedy: Study of one prose text and one poetry text 	<p>Paper 1: Literary genres</p> <ul style="list-style-type: none"> Aspects of tragedy: study of three texts: one Shakespeare text; a second drama text and one further text, of which one must be written pre-1900 <p>Paper 2: Texts and genres</p> <ul style="list-style-type: none"> Elements of crime writing: Study of three texts: one post-2000 prose text; one poetry and one further text, of which one must be written pre-1900 Exam will include an unseen passage <p>Non-exam assessment: Theory and independence</p> <ul style="list-style-type: none"> Study of two texts: one poetry and one prose text, informed by study of the Critical anthology Two essays of 1,250–1,500 words, each responding to a different text and linking to a different aspect of the Critical anthology One essay can be re-creative The re-creative piece will be accompanied by a commentary

Assessment			
Paper	Title	Assessment	A Level
1	Literary genres	Written Exam: 2hr 30min (closed book)	40%
2	Texts and genres	Written Exam: 3hr (open book)	40%
-	Non-exam assessment: Theory and independence	Non-exam Assessment	20%

EXTENDED PROJECT QUALIFICATION (EPQ)

Course Length:	Studied over 120 hours
Examination Board:	AQA
Course Leader:	Ms K Morgan (morgan@queenelizabeths.derbyshire.sch.uk)

Course Content

What is it?

The EPQ is an exciting qualification which is growing at QEGS each year. Students can choose to do the EPQ alongside their A-Level or BTEC courses.

It is a research-based piece of work of the students' choosing that requires evidence of planning, preparation, research, analysis, decision-making and autonomous working.

The Project can be an extension of an existing programme of study, or can arise from an area of interest. It could possibly be connected to a future career or university course.

The Project can take several forms. It can be a 5,000 word written report (dissertation style) or it can be an artefact (e.g. a piece of art), an event (e.g. a fashion show) or an electronic product (e.g. a computer game) with a shorter report.

This is a great opportunity to do something truly individual and increase the depth of knowledge in an area of particular interest.

Whatever form the outcome takes, it must be based on research which leads the student to make decisions about how they create the product or reach the written conclusion.

Recent example projects include:

- Will UEFA Fair Play Regulation solve the problems commercialisation has created in the Premier League?
- A design for an aesthetically pleasing Passive House
- To what extent are Modern day beliefs about Ancient Roman dietary habits exaggerated?
- To design a Role Playing Game with a compelling narrative for the 16-25 age group
- Should Texas retain the death penalty?
- Can IPS cells be used to develop a cure for Parkinsons?
- To create a contemporary propaganda poster accessible to dyslexics

Why do it?

The EPQ is highly valued by universities and employers. It is graded A*- E and achieves UCAS points worth half of A-Level grades.

The aims of the extended project are:

- To extend students' skills in planning, research and critical thinking, presentation, synthesis and evaluation and referencing.
- To allow students independence, choice and input into the design of an extended piece of work.
- For students to use this 'toolkit' of skills to better prepare them for higher education and employment.

How is it taught?

The EPQ includes a taught skills programme which is primarily delivered at the start of the course. This is followed by time to work independently, some more taught sessions and meetings with the students' EPQ teacher and supervisor. There is a lot of independent research involved in this qualification as this is a project in which the student becomes the expert.

How is it assessed?

There is no exam for the EPQ. The evidence submitted for assessment will be:

- A completed production log which records the process from proposal to final review
- The Project product: either a long-written report of approximately 5000 words or an artefact, CD/DVD of performances, audio/multimedia presentation, photo log, etc. which must be supported by a written report of approximately 1000 words
- A presentation for a non-specialist audience using appropriate media

MODERN FOREIGN LANGUAGES

French | German | Spanish

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader (French):	Mrs L Atkinson (atkinson@queenelizabeths.derbyshire.sch.uk)
Course Leader (German):	Ms A Hill (hill@queenelizabeths.derbyshire.sch.uk)
Course Leader (Spanish):	Mrs A Anstead (anstead@queenelizabeths.derbyshire.sch.uk)

Course Content - French	
AS and A-Level Aspects of French-speaking society: current trends Including: the changing nature of family, the 'cyber-society', and the place of voluntary work. Artistic culture in the French-speaking world Including: a culture proud of its heritage, contemporary francophone music and cinema: the 7th art form.	A-Level only Aspects of French-speaking society: current issues Including: positive features of a diverse society, life for the marginalised and how criminals are treated. Aspects of political life in the French-speaking world Including: teenagers, the right to vote and political commitment, politics & immigration, demonstrations, strikes – who holds the power?

Course Content - German	
AS and A-Level Aspects of German-speaking society Including: the changing state of the family, the digital world and youth culture: fashion and trends, music and television. Artistic culture in the German-speaking world Including: festivals and traditions, art and architecture and cultural life in Berlin, past and present.	A-Level only Multiculturalism in German-speaking society Including: immigration, integration and racism. Aspects of political life in the German-speaking world Including: Germany and the European Union, politics and youth, and German reunification and its consequences.

Course Content - Spanish	
AS and A-Level Aspects of Hispanic society Including: modern and traditional values, cyberspace and equal rights. Artistic culture in the Hispanic world Including: modern day idols, Spanish regional identity and cultural heritage or cultural landscape.	A-Level only Multiculturalism in Hispanic society Including: immigration, racism and integration. Aspects of political life in the Hispanic world Including: Today's youth, tomorrow's citizens, monarchies, republics and dictatorships, and popular movements.

Assessment				
Paper	Title	Assessment	AS	A Level
1	Listening, Reading and Writing	Written Exam: 1hr 45min	45%	-
2	Writing (set text or film)	Written Exam: 1hr 15min	25%	-
-	Non-exam Assessment	Speaking Exam: 12-14min	30%	-
1	Listening, Reading and Writing	Written Exam: 2hr 20min	-	50%
2	Writing (2 set texts or 1 text and 1 film)	Written Exam: 2hr	-	20%
-	Non-exam Assessment	Speaking Exam: 21-23min	-	30%

GEOGRAPHY

Course Length:	Studied over two years
Examination Board:	Pearson Edexcel
Course Leader:	Miss K Edwards (edwards@queenelizabeths.derbyshire.sch.uk)

Course Content

Area of Study 1:

Dynamic Landscapes (AS)

- Tectonic Processes and Hazards
- Landscape Systems, Processes and Change, including Glaciated Landscapes and Change, or Coastal Landscapes and Change

Area of Study 2:

Dynamic Places (AS)

- Globalisation
- Shaping Places, including Regenerating Places or Diverse Places

Area of Study 1:

Dynamic Landscapes (A-Level)

- Tectonic Processes and Hazards
- The Water Cycle and Water Insecurity
- The Carbon Cycle and Energy Security
- Glaciated Landscapes and Change or Coastal Landscapes and Change

Area of Study 2:

Dynamic Places (A-Level)

- Globalisation
- Superpowers
- Regenerating Places or Diverse Places
- Health, Human Rights and Intervention or Migration, Identity and Sovereignty

Area of Study 3:

Synoptic Assessment (A-Level)

A resource booklet will contain information about a geographical issue. The following synoptic themes will be assessed within the compulsory content areas:

- Players
- Attitudes and actions
- Futures and uncertainties

The synoptic investigation will be based on a geographical issue within a place-based context

Area of Study 4:

Independent Investigation (A-Level)

- An investigation report of 3000-4000 words

Assessment

Paper	Title	Assessment	AS	A Level
1	Dynamic Landscapes	Written Exam: 1hr 30min	50%	-
2	Dynamic Places	Written Exam: 1hr 30min	50%	-
1	Dynamic Landscapes	Written Exam: 2hr	-	30%
2	Dynamic Places	Written Exam: 2hr	-	30%
3	Synoptic Paper	Written Exam: 1hr 45min	-	20%
4	Independent Investigation	Internally assessed externally moderated	-	20%

GOVERNMENT AND POLITICS

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mr P Wyke (wyke@queenelizabeths.derbyshire.sch.uk)

Why study Government and Politics?

In the current climate of massive political change in Britain, the US, and our world as whole, there is no better time to be studying Government and Politics.

What will Brexit look like? Will Donald Trump win a second term? Can Jeremy Corbyn unite the Labour Party and win the next election? Will Brexit tear the Conservative Party apart? These are some of the many questions that studying Government and Politics will allow you to wrestle with and try to answer!

Where can Politics take me?

It's ideal if you're considering studying politics, sociology, ethics, advertising or journalism at university and is highly regarded by employers in industries including politics, international organisations, the media, government and the civil service.

Possible subject combinations: History, English, Psychology, Economics, Sociology.

Course Content

The topics studied are:

Paper 1 - Government and Politics of the UK

In this section of the course, students will study the Government and Politics of the UK. Students will develop knowledge of the government of the UK, focusing on the British constitution, the UK Parliament, the Prime Minister and cabinet, the judiciary and devolution. Students will also develop knowledge of UK politics, covering democracy and participation, elections and referendums, political parties, pressure groups and the European Union.

Paper 2 - Government and Politics of the USA

In this section of the course, students will study the Government and Politics of the USA. Students will develop knowledge of the constitutional framework of US Government, the legislative branch of government: Congress, the Executive Branch of Government: President, and the Judicial Branch of Government. Students will also look at the electoral process and direct democracy, political parties, and pressure groups. Key to this section will be pupil's ability to make links between similarities and differences between UK and US politics.

Paper 3 – Political Ideas

In this section of the course, students will study the main three ideologies that are present in our society: liberalism, socialism, conservatism, and the fourth ideology of multiculturalism. They will make links between the ideologies and issues that have been studied in Paper 1 and 2. They will examine the arguments and theories of the influential figures within the ideologies.

Assessment

Paper	Title	Assessment	A Level
1	Government and Politics of the UK	Written exam: 2 hours	33%
2	The Government and Politics of the USA	Written exam: 2 hours	33%
3	Political ideas	Written exam: 2 hours	33%

HISTORY

Course Length:	Studied over two years
Examination Board:	Pearson Edexcel
Course Leader:	Mr A Hamer (hamer@queenelizabeths.derbyshire.sch.uk)

Course Content

PAPER 1: Russia 1917-91: from Lenin to Yeltsin

This topic comprises a study in breadth, in which students will learn about the key political, social and economic features of communist rule in Russia during the twentieth century, an era that saw its authority and influence rise to the status of a superpower, only to diminish and decline later in the century.

The focus of study is on developments and changes over a broad timescale, and so the content is presented as themes spanning a significant duration: 1917–85. This option also contains a study in depth of historical interpretations on a broad question, which is contextualised by, and runs on from, the themes: reasons for the fall of the USSR, c1985–91. Communist Government in the USSR, 1917–85, Industrial and agricultural change, 1917–85, Control of the people, 1917–85, Social developments, 1917–85, What explains the fall of the USSR, c1985–91?

PAPER 2: Mao's China, 1949-76

This topic comprises a study in depth of the transformation of communist China in the years 1949–76. The aftershocks of these changes are still being felt today as China emerges as a great economic and political power on the world stage.

Students will gain an in-depth understanding of the nature and extent of change in this period, the effects of Mao Zedong's policies on the lives of the Chinese people, and Mao's role in driving dramatic political, social and economic changes. Establishing communist rule, 1949–57, Agriculture and industry, 1949–65, The Cultural Revolution and its aftermath, 1966–76, Social and cultural changes, 1949–76.

PAPER 3 (A-Level only): Lancastrians, Yorkists and Henry VII, 1399-1509

This topic comprises two parts: the Aspects in breadth focus on long-term changes and contextualise the Aspects in depth, which focus in detail on key episodes. Together, the breadth and depth topics explore the dramatic developments in late medieval England that centred around the personalities and political skills of a series of kings, queens and their powerful subjects, and the impact of these developments on the kingdom. Within the primarily political focus on the nature of kingship and authority in England, this option also explores the wider social and economic contexts of political struggle.

Assessment

Paper	Title	Assessment	AS	A Level
1	Russia 1917-91: from Lenin to Yeltsin	Written Exam	60%	-
2	Mao's China, 1949-76	Written Exam	40%	-
1	Russia 1917-91: from Lenin to Yeltsin	Written Exam	-	30%
2	Mao's China, 1949-76	Written Exam	-	20%
3	Lancastrians, Yorkists and Henry VII, 1399-1509	Written Exam	-	30%
-	Topic relating to Paper 1 or 2	Non-exam assessment	-	20%

CORE MATHEMATICS

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mrs R Statham (statham@queenelizabeths.derbyshire.sch.uk)

What is our Core Mathematics qualification?

- A new Level 3 Mathematics qualification, half the size of an A-Level, with two end-of-course examinations
- The content is based around the new GCSE Mathematics Higher Tier, with around 20% taken from other qualifications, for example A-Level Mathematics

Level 3 Mathematical Studies (Core Mathematics) is a new qualification designed for students who have achieved a grade 5 or above at GCSE and who are not taking Mathematics in the Sixth Form.

It helps to develop students' mathematical skills and thinking and supports courses such as A-level Psychology, Sciences and Geography, as well as technical and vocational qualifications.

This qualification is linear. Linear means that students will sit all the exams at the end of their two year course.

Compulsory content:	The academy will then offer optional units taken from:
<ul style="list-style-type: none"> • Analysis of data • Maths for personal finance • Estimation • Critical analysis of given data and models (including spreadsheets and tabular data) 	<ul style="list-style-type: none"> • Statistical techniques • Critical path and risk analysis • Graphical techniques

Assessment

The assessment will be 2 papers each of one hour and a half where much of the content questions are based on pre released preliminary material.

MATHEMATICS

Course Length:	Studied over two years
Examination Board:	AQA AS Mathematics 7356, A Level Mathematics 7357
Course Leader:	Mrs R Statham (statham@queenelizabeths.derbyshire.sch.uk)

AS Level	A-Level
<p>Develops from GCSE the techniques of Pure Mathematics in the areas of Algebra, Co-ordinate Geometry and introduces Calculus with the basic forms of differentiation and integration leading to a wider range of functions plus the introduction of logarithms and exponentials, sequences and series and trigonometrical identities and related results.</p> <p>The course will also involve elements of the applied topics of statistics and mechanics.</p> <p>40% of the exam will focus on problem solving.</p>	<p>This further develops techniques in algebra and functions, trigonometry, logarithms and calculus and also introduces the use of numerical methods to find approximate solutions to equations.</p> <p>There is further study of more complex functions and their operations, trigonometrical identities, co-ordinate geometry, series and calculus. Formal vector geometry is introduced and differential equations are solved.</p> <p>There will be further work on statistics and mechanics.</p> <p>50% of the exam will focus on problem solving.</p>

Assessment

Paper 1	Written Exam: 1hr 30min	50%	-
Paper 2	Written Exam: 1hr 30min	50%	-
Paper 1	Written Exam: 2hr	-	33.3%
Paper 2	Written Exam: 2hr	-	33.3%
Paper 3	Written Exam: 2hr	-	33.3%

FURTHER MATHEMATICS

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mrs R Statham (statham@queenelizabeths.derbyshire.sch.uk)

AS Level	A2 Level
This extends the knowledge and skills studied in A-Level Mathematics. The study areas are Algebra and Graphs, Roots of Quadratic Equations, Series, Calculus, Numerical Methods and Trigonometry. New topics introduced are Complex Numbers and Matrices, along with applied mathematics.	This assumes prior coverage of A-Level Mathematics and goes deeper into Calculus. Differential Equations of first and second order are studied in detail. Other topics on the programme of study are polar co-ordinates, complex numbers, matrices, trigonometry and vectors. There will be work on applied mathematics alongside this.

Assessment			
Paper No.	Assessment	AS %	A2 %
Paper 1	Written Exam: 1hr 30min	50%	-

MUSIC

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mr D Roberts (robertsd@queenelizabeths.derbyshire.sch.uk)

Course Content

Students must complete all three components.

Component 1: Appraising music (40% of the AS marks)

You will answer questions from three sections:
Section A: Listening (49 marks)
Section B: Analysis (17 marks)
Section C: Essay (30 marks)

Component 2: Performance (30% of AS marks)

This component will be externally marked by AQA examiners. Work must be completed between 1 March and 31 May and sent by post/uploaded to AQA.

A minimum of six minutes of performance in total is required (no more than eight minutes).

Component 3: Composition (30% of AS marks)

This component will be externally marked by AQA examiners. Work must be completed by 31 May and sent by post/uploaded to AQA

You must compose minimum of four and a half minutes of music (no more than six minutes).

The four and a half minutes will consist of two compositions:

Composition 1: Composition to a brief (25 marks)

Composition 2: Free composition (25 marks)

Component 1: Appraising music (40% of A-Level marks)

You will answer questions from three sections:

Section A: Listening (56 marks)

Section B: Analysis (34 marks)

Section C: Essay (30 marks)

Component 2: Performance (35% of A-Level marks)

This component will be externally marked by AQA examiners. Work must be completed between 1 March and 31 May and sent by post/uploaded to AQA.

A minimum of ten minutes of performance in total is required (no more than twelve minutes).

Component 3: Composition (25% of A-level marks)

A minimum of four and a half minutes of music in total is required (no more than six minutes).

Composition 1: Composition to a brief (25 marks)

Composition 2: Free composition (25 marks)

Assessment

PSYCHOLOGY

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mrs L Allen (allen@queenelizabeths.derbyshire.sch.uk)

Course Content

The Psychology A-level science course ensures that all students are given the opportunity to acquire the experimental and practical skills essential for further study and successful scientific research.

The mathematical skill in Psychology is taught and understood at and beyond the level of Mathematics required for a GCSE grade 4. Students taking A-level Psychology are required to have a grade 5 in GCSE Mathematics (over 10% of the assessment tests mathematical ability).

Paper 1 - Introductory topics in Psychology

1 - Social Influence: What makes people follow the crowd and what gives some of us the power to resist? Why do you follow an authority figure?

2 - Memory: Can you remember everything you have done in the last 24 hours and what happens when you invent events to fill the gaps?

3 - Attachments: How are emotional bonds with our caregivers built and how do earliest attachments leave a lasting mark on our lives?

4 - Psychopathology: What does it mean to be abnormal? An exploration of the definitions, explanations and treatments of psychological disorders including; phobias and depression.

Paper 2 – Psychology in Context

1 - Approaches in Psychology: Where does psychology originate from? Who were the key researchers that established the main approaches we study in psychology today?

2 - Biopsychology: Focuses on explaining behaviour biologically by considering the role of genetics, brain physiology and biochemistry. What happens to your brain following injury?

3 - Research Methods: Scientific methods are explored alongside a thorough consideration of the ethical issues relating to psychological research.

Students are required to carry out mathematical equations including algebra, percentages, ratios amongst other skills.

Paper 3 - Issues and Options in Psychology

1 - Issues and Debates: What is the nature vs. nurture debate? Is psychological research biased to males? This explores the different issues that arise throughout psychological research and how best to deal with them.

2 - Schizophrenia: How does a psychiatrist decide whether a patient has a mental illness such as schizophrenia and depression? Why do these definitions vary so much between cultures?

3 - Relationships: Theories of the formation, maintenance and breakdown of romantic relationships. For example, reward/need satisfaction, social exchange theory.

4 - Addiction: How do we become addicted? Is addiction a disease or a mental illness? Does drug dependence and addiction mean the same thing?

Assessment

Paper	Title	Assessment	A Level
1	Introductory Topics in Psychology <i>Social influence, Memory, Attachment & Psychopathology</i>	Written Exam: 2hr	33.3%
2	Psychology in Context <i>Approaches in Psychology, Biopsychology & Research Methods</i>	Written Exam: 2hr	33.3%
3	Issues and Options in Psychology <i>Issues and Debates, Schizophrenia, Relationships & Addiction</i>	Written Exam: 2hr	33.3%

RELIGIOUS STUDIES

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Mr N McGarrigle (mcgarrigle@queenelizabeths.derbyshire.sch.uk)

Course Content

<p>The topics studied are:</p> <p>Year 12</p> <p>Religion and Ethics</p> <p>Ethics is the study of ideas surrounding 'right and wrong'. In this paper students will explore the key moral principles and values that underline Christian identity. From this foundation, students will also critically explore other key ethical theories (both religious and non-religious) as they apply them to complex and often emotive issues surrounding human life and death, as well as also applying them to issues surrounding animal welfare.</p> <p>Religion and Philosophy</p> <p>Here, students will study Christian philosophical concepts surrounding God and beliefs about life after death. Students will then progress to explore further key philosophical arguments surrounding the existence of God, religious experiences, and evil and suffering.</p> <p>Year 13</p> <p>A-Level students continue to explore new areas of religious studies, philosophy and ethics in an A-Level which is designed to challenge and yet offer a structured approach to the final examination.</p> <p>Religion and Ethics</p> <p>Students will continue to develop their understanding of complex issues surrounding Christianity and sexual identity, as well assessing the effects of religious pluralism on core Christian principles and values. From here, students will progress to critically evaluate additional significant ethical theories (Bentham and Kant), study meta-ethics (the meaning of ethical language), exploring concepts of conscience, and finally analyse arguments surrounding freewill/determinism.</p>	<p>Religion and Philosophy</p> <p>Students will continue to explore complex philosophical arguments drawing upon the challenges to Christian belief from scientific advancement, and the nature and role of Christianity in modern society. They will also critically analyse the philosophical and religious challenges of miracles, religious language and the idea of 'self' in relation to life after death.</p> <p>Additional Information</p> <p>Religious Studies is a popular and very successful A-Level at QEGS. Past students have gone on to study at many of the top Universities and to use their knowledge in a variety of careers ranging from Medicine, Law, and Finance right through to the Police Service and the Armed Forces.</p> <p>It is recommended that students have an interest in current affairs as they are regularly used to enrich their learning experiences through applying them to philosophical, ethical and religious ideas.</p> <p>There are regular practice essays to support students in developing their exam skills, plus regular lively debates and discussions as we explore these fascinating and often contentious topics.</p> <p>We recommend that if you are considering beginning this course, you should try reading one of the following books:</p> <ul style="list-style-type: none"> ▪ Jostein Gardner – Sophie's World ▪ Peter Vardy – The Puzzle of God/Ethics/Sex ▪ Mel Thompson – Teach Yourself the Philosophy of Religion/Ethics
---	--

SCIENCE (APPLIED SCIENCE) - LEVEL 3 BTEC

EXTENDED CERTIFICATE SINGLE AWARD

Course Length:	Studied over two years
Examination Board:	Pearson Edexcel
Course Leader:	Miss S Rogers (rogerss@queenelizabeths.derbyshire.sch.uk)

Course Content

QEGS has a strong tradition of successful science teaching over many years.

This Level 3 BTEC is a Nationally Recognised Qualification which is studied over 2 years. During the first year students will work towards a certificate, equivalent to 1 AS Level and during the second year students will complete the Subsidiary Diploma equivalent to 1 A-Level.

The course covers all three sciences of Biology, Physics and Chemistry, but in an “applied” context. That means that you will learn the science in a “real life” context through specially developed assignments. You will sometimes work on your own and sometimes in small groups. We will teach you the research and study skills you will need for success. There will also be opportunities to visit scientific workplaces to learn how science and scientific skills are used professionally. Such visits will allow you to gain ideas about career opportunities in science. As well as using ICT for presenting your work, you will also be encouraged to use it for research and for monitoring and recording experimental work.

You will benefit from extensive support and guidance throughout your time on the course. BTEC Level 3 Applied Science will prepare you for a career in many science-based industries and organisations. It will also support those who are interested in other careers for which science is important such as Primary Teaching, Childcare, Nursing, Sports Management or Sports Training. Many former science students have progressed to University to study a wide range of subjects including Forensics, Construction, Animal Behaviour, Biochemistry, Physiotherapy and Biomedical Sciences.

Other students following the course have chosen to follow Apprenticeships in Laboratory Work or Engineering.

Mandatory units in the first year and into the second

- 1 - Principles and Application of Science 1
Examined externally (90Hrs)
- 2 - Practical Scientific Procedures and Techniques (90Hrs)
- 3 - Science Investigation Skills Examined externally (120 Hrs)

One other unit in the second year from a choice which will depend on the staff and equipment

- 8 - Physiology of Human Body Systems
- 9 - Human Regulation and Reproduction
- 10 - Biological Molecules and Metabolic Pathways
- 11 - Genetics and Genetic Engineering
- 12 - Diseases and Infections
- 13 - Applications of Inorganic Chemistry
- 14 - Applications of Organic Chemistry
- 15 - Electrical Circuits and their Application
Industrial Chemical Reactions
- 16 - Astronomy and Space Science

Assessment

Unit No	Title	Assessment
1	Principles and Application of Science	Assessed externally
2	Practical Scientific Procedures and Techniques	Internal assessment
3	Science Investigation Skills	Assessed externally

Plus 1 additional units (studied in the second year)

SOCIOLOGY

Course Length: Studied over two years
Examination Board: AQA
Course Leader: Mrs L Allen (allen@queenelizabeths.derbyshire.sch.uk)

Course Content

A-Level Sociology has a strong focus on contemporary UK society and our place in a global context. At the heart of Sociological research lies the desire to understand how society works and to explore possibilities for change. What issues inspire you? What would you change? We are living in exciting times. Controversial social questions form part of the fabric of our lives and the world around us.

Education and Methods in Context

'Compulsory education will get young pickpockets off the streets.' W.E. Gladstone, 1868. What is the purpose of education today? Is education a human right? What do you learn in school - skills, facts or how to agree with authority? Some sociologists see education as turning pupils into model citizens while others say that it suppresses revolution. What do you think? Students will understand and use surveys, questionnaires, interviews, such as those conducted by Mac an Ghaill into sub-groups among secondary school pupils. They will also analyse Government statistics, such as the data showing that White and African Caribbean working class boys are failing at school. Students will examine the ethics of experimenting in the classroom and ask - "Can it ever be acceptable to lie about a pupil's intelligence for the sake of research?".

Culture and Identity

What does it mean to be human? Two infants were lost in India in 1918; years later they were found and returned to their families, but they had been brought up by wolves and they growled, lapped water from puddles and ran on all fours. At birth, we are faced with a social world that already exists. Joining this world involves rapidly learning how things are done in it. 'In the Shirbit culture men daily engage in a barbaric act of self mutilation by scraping their faces.' Recognise this? Where might the 'shirbits' live? Sociologists seek to understand their own culture and enter other cultures and understand them too.

The Media

Developments over the past 30 years have led to a dramatic increase in the types of mass media available to people and the effects of this are still unclear. Does the age of new personalised media mean more consumer choice, resulting in a wide range of opinions? Or are they dominated by media conglomerates that use them for their own purposes? The Leveson Inquiry was set up to investigate the relationship between press and politicians. Which is the more powerful? Has YouTube beaten TV? Should the Government be able to control the film industry? Do the media shape your opinions... or are you, the audience, in control?

Crime & Deviance

'I was pushing my baby through a subway the other day and about 14 lads were behind me. They were being threatening, waving bicycle chains around. They were chasing a boy in front.' 'Barclays bank fined £290 million for trying to manipulate interest rates.' What is crime and how does society deal with it? Students will understand the major theoretical approaches to crime including Functionalism, Marxism and Interactionism.

Theory and Methods

Students will become familiar with a wide range of original research, such as official crime statistics, self-report studies and Durkheim's comparative analysis of the reasons for suicide. This will include the process involved in sociological research including sampling, practical, ethical and theoretical issues. Students will also examine the role of social policy in addressing social problems, such as racism and youth offending.

Assessment

Paper	Title	Assessment	A Level
1	Education with Theory and Methods	Written Exam: 2hr	33.3%
2	Topics in Sociology <i>Culture and Identity, The Media</i>	Written Exam: 2hr	33.3%
3	Crime and Deviance with Theory and Methods	Written Exam: 2hr	33.3%

SPORT AND PHYSICAL EDUCATION

Course Length:	Studied over two years
Examination Board:	AQA
Course Leader:	Miss K Brown (brown@queenelizabeths.derbyshire.sch.uk)

Course Content

Students study:

- Applied anatomy and physiology - cardiovascular system, respiratory system, neuromuscular system, musculo-skeletal system and analysis of movement in physical activities
- Skill acquisition - skill, skill continuums and transfer of skills, impact of skills classification on structure of practice for learning, principles and theories of learning and performance, and the use of guidance and feedback
- Sport and Society - emergence of globalisation of sport in the 21st century and sociological theory applied to equal opportunities
- Exercise physiology - diet and nutrition and their effect on physical activity and performance, and preparation and training methods in relation to maintaining physical activity and performance
- Biomechanical movement - biomechanical principles and levers
- Sports psychology - aspects of personality, attitudes, arousal, anxiety, aggression, motivation, social facilitation, group dynamics and the importance of goal setting
- Sport and society and the role of technology in physical activity and sport - the role of technology in physical activity and sport

In addition to AS content, A-Level students study:

- Applied anatomy and physiology - energy systems
- Skill acquisition - memory models
- Exercise physiology - injury prevention and the rehabilitation of injury
- Biomechanical movement - linear motion, angular motion, projectile motion and fluid mechanics
- Sports psychology - achievement motivation theory, attribution theory, self-efficacy and confidence, leadership and stress management
- Sport and society and the role of technology in physical activity and sport - concepts of physical activity and sport, development of elite performers in sport, ethics in sport, violence in sport, drugs in sport, sport and the law, impact of commercialisation on physical activity and sport and the relationship between sport and the media

GCSE PE is NOT required for success on this course.

Assessment

Title	Assessment	A Level
Paper 1: Factors affecting participation in physical activity and sport <ul style="list-style-type: none"> • Section A: Applied anatomy and physiology • Section B: Skill acquisition • Section C: Sport and society 	Written Exam: 2hr	35%
Paper 2: Factors affecting optimal performance in physical activity and sport <ul style="list-style-type: none"> • Section A: Exercise physiology and biomechanics • Section B: Sport psychology • Section C: Sport and society and technology in sport 	Written Exam: 2hr	35%
Practical performance in physical activity and sport <ul style="list-style-type: none"> • Students assessed as a performer or coach in the full sided version of one activity • Plus: written/verbal analysis of performance 	Non-exam Assessment	30%

SPORT AND EXERCISE SCIENCE

BTEC LEVEL 3 EXTENDED DIPLOMA TRIPLE AWARD

Course Length: Studied over two years
Examination Board: Pearson Edexcel
Course Leader: Miss K Brown (brown@queenelizabeths.derbyshire.sch.uk)
 Pearson BTEC Level 3 National Extended Diploma (1080 Guided Learning Hours - Equivalent of 3 A-Levels)

This is a two year full-time course providing a specialist, work-related programme of study. It covers the key knowledge and practical skills required for those who have already decided the specialist area they wish to study. This course is equivalent to three A-Levels.

The qualification gives learners knowledge, understanding and skills that underpin the sport and exercise science sector to prepare them for further study or training at a higher level.

GCSE PE is NOT required for success on this course.

Students will study 7 mandatory content areas

- Applied Research Methods in Sport and Exercise Science
- Applied Sport and Exercise Psychology (Pre-release task)
- Coaching for Performance and Fitness
- Field and Laboratory-based Fitness Testing
- Functional Anatomy (exam based)
- Sport and Exercise Physiology (exam based)
- Nutrition (Pre-release task)

Optional units are then chosen to complement the mandatory units

- Specialised fitness training (group dependent) in Sport and Exercise Science
- Physical Activity for Individual and Group-based Exercise
- Sociocultural Issues in Sport and Exercise
- Research Project in Sport and Exercise Science
- Sports Massage
- Sports Injury and Assessment

Students will build a portfolio based around evidence generated by the various assessment methods in each unit.

Students can expect to be assessed through:

- External Examination (x2)
- External pre-release tasks (x2)
- Logbooks and performance records
- Written reports and essays
- Presentations
- Workbooks
- Student Assignment

SUPPORTING TEACHING AND LEARNING IN SCHOOLS

BTEC LEVEL 3 AWARD

Course Length: Studied over two years
Examination Board: Edexcel
Course Leader: Miss K Brown (brown@queenelizabeths.derbyshire.sch.uk)

Are you considering a job in the educational sector? Would you like to gain valuable experience in addition to your graded course? Would you like to help others to learn and provide young students with every possible chance to succeed? Would you like to start work as a teaching assistant post qualification?

This is a brand new course for 2020 and is an exciting opportunity to take a supplementary course that will provide you with a hands on vocational experience within an educational environment. A perfect addition to A Levels or one of our BTEC options which will open job opportunities directly after sixth form or perhaps to supplement your University degree.

This award is designed to provide the knowledge, understanding and skills learners need to provide effective support for teaching and learning in educational settings. Learners will develop skills and techniques, personal qualities and attitudes essential for successful performance in working life in and out of the education sector. The award supports pre-service and early career learning for teaching assistants and other learning support roles in education enabling entry to a school environment as a teaching assistant on completion

You would receive structured lessons delivering the course content alongside a placement within our school setting or a local primary school to transfer your knowledge into a refined skill.

Course Content

Units Completed

- 1 – Communication and Professional Relationships with Children, Young People and Adults
- 6 – Schools As Organisations
- 10 – Understand Child and Young Person Development
- 11 – Understand How to Safeguard the Well-being of Children and Young People

This is a competence-based qualification of 80 GLH with a total qualification time (TQT) of 120 hours.

Assessment would include; video recordings, observation records, log books and tracking documentation providing a portfolio of evidence.

OTHER OPPORTUNITIES

Travel

At QEGS, we believe it is important that students are given the opportunity to broaden their horizons and develop new interests. Each year, the geography department offer a foreign expedition to explore an area of global significance or interest. In the past these trips have included; Iceland, Thailand, Morocco and China.

For students taking Modern Foreign Languages the academy is able to arrange work experience in France or Germany.

University Visits

Each year we offer visits to universities, opportunities to take part in taster days, and places on schemes run by universities. We run a visit to the UCAS convention, where students can access information on a vast number of different universities and higher education organisations. In June, we visit Oxford and Cambridge University for those students who aspire to achieve a place at Oxbridge. We have strong connections with the University of Sheffield and the University of Derby and have attended taster days on 'Global Justice' and 'Gender on the Agenda', a Mock United Nations, and a Law Competition. We encourage participation in the broad range of opportunities we offer our students.

Student Investor Challenge

Students in the Sixth Form are encouraged to take part in this national web-based competition involving the investment and tracking of a virtual £100,000 stock market investment portfolio. The activity can be tackled at a number of different levels and encourages students to broaden their understanding of the business world. The prize for winning this national competition is an all-expenses paid trip to New York!

Student Leadership

In March of Year 12, students are able to apply for positions on the Student Leadership Team. These include Head Students and 8 other individual leadership roles. They regularly represent the academy and are role models to younger students throughout QEGS. Students are responsible for their Prom, Sixth Form Charities, Promotion of the Sixth Form, Lower School Councils, student wellbeing, mentoring of younger students, Sixth Form events, inter-form competitions, and digital communication. There are regular meetings of the Sixth Form council and there is the opportunity for Year 12 students to become members of both the council and the subcommittee. We also arrange occasional training sessions on minute taking, leadership, mentoring, etc. Student Leaders also act as reading buddies and role models for the younger students.

Sport

There is a strong tradition of sporting activity throughout QEGS and this continues on into the Sixth Form. Teams practise regularly during lunchtime and after school and fixtures are held mid-week.

Students are represented in Athletics, Basketball, Cricket, Cross-Country, Hockey, Netball, Rounders, Rugby, Football and Tennis and play against teams in both Derbyshire and Staffordshire. Outstanding sporting students have the potential to be awarded Full School Colours.

Opportunities arise for students to attend trials for Area, County and Regional teams. QEGS has always been well represented at Derbyshire Schools level and have had National success in the main team games.

QEGS also has a very active and successful Equestrian team, which has competed at National level for several years, in the disciplines of: show jumping, jumping with style and dressage.

Music

Students are encouraged to develop their musical talents, either individually or as part of an ensemble. Ensembles are dependent on the cohort of instrumentalists and those currently active are:

- Senior Choir
- Senior Band
- Swing Band
- Ukulele Group

Practices are weekly and concerts are presented at Christmas and in the summer term. Musicians also support the annual show. The academy's musical production is performed for several consecutive nights and is well-attended each year by parents and the local community. Year 12 students are regularly involved both on stage and back stage.

Duke of Edinburgh Gold Award

The Gold award for Sixth Form students is universally recognised as an enjoyable, challenging and rewarding programme of personal development.

The sections to be completed for the Gold Award are:

- Volunteering - providing service or individuals or the community
- Physical - sporting, dance or fitness activities
- Skills - developing skills and personal interests
- Expedition - planning, training and completing an adventurous activity (kayaking or walking offered)
- Residential - a purposeful project away from home

SUMMARY OF A LEVEL RESULTS - 2018

Subject	Entries	A*/A %	A*-C %	Avg Grade
