

Y9 SNOW DAY PHOTOGRAPHY TASK:

Take a minimum of three snow themed photographs. This could be a close up of the snowfall on a plant or tree or a snowy scene out of your window. Be creative and use your knowledge of photography techniques. Label the techniques you have used, for example; macro, texture, pattern, angles and viewpoints, balance, negative space, focus, framing. Please email the photos to me Murphy@queenelizabeths.derbyshire.sch.uk or bring in printed copy for our next lesson. You may print using the computers in my art room 410 at a break or lunch if necessary.

If you do not have access to a camera, please email me and for an alternative study task.

HAVE FUN!
