

# Bike trailer project

# Tools and materials used

- 20mm ply board
- Right angle brackets
- Aluminum frame
- Wheels
- Bike connector
- Pipe rounded brackets
- Screws
- Drill
- Impact driver
- Belt sander
- Jigsaw
- Screwdriver
- Circular saw

# Pros and cons

- Can carry two Sainsburys delivery crates with room to spare
  - Strong
  - You can fit a bin in it to collect litter
  - Easy way of carrying large tools e.g. fence posts , post rammer and bale spike
  - Easy to sit in
- 
- A little heavy when full of stuff
  - Capacity could be increased

## Things I could change

- Use 6mm plyboard instead to make it lighter
- Use bigger frame to make it longer
