

**Unit One – Exercise Physiology**  
**Miss Brown**

*How the body works!*

**Where do I get the work from?**

Please check your email.

**External candidates** please email me at [brown@queenelizabeths.derbyshire.sch.uk](mailto:brown@queenelizabeths.derbyshire.sch.uk) and I will add you on.

You will find two emails.

The **first** will send you to a **YouTube tutorial link** that shows you where to find our OneNote Classbook, and how to access the correct pages. This is an online set of folders where I will set you work, you complete it and I can feedback for development.

Only I can see your work.

**I've found and watched the video. What next?**

Now go to your email and click the link – Miss Brown has shared with you.

You will be asked to log in, use your school email.

It will open up OneNote. If you get stuck – rewatch the YouTube tutorial.

The video is private so can only be accessed with the link.

**I still cant do it! What should I do?**

Email me; [brown@qegs.email](mailto:brown@qegs.email)

**What work have I been set?**

On the OneNote Classbook you will find;

**Online tutorials**

**Worksheets**

**Exam questions**

I have, at present, given 4 lessons of work. You will see more pages open as the weeks proceed.

**I still have questions. Can I ask them?**

Of course, always! You can email me or if it is of a general A Level questions we will use the Callaboration Space in the OneNote so you can type in a question and the class can interact/answer/see it – as will I.
