

20th October 2020

Dear Parent/Carer

Key Stage 4 Maths Intervention

In order to support our KS4 students even further in their return to school and preparation for exams, the maths department are putting together weekly pre-recorded revision sessions for specific topics that will be split into higher and foundation levels. The sessions will be presented by a member of the maths department and will contain explanations, examples and a chance for students to practice some questions for themselves.

All students will be emailed the links to the revision sessions on a weekly basis. However, if you would like to ensure that your child is taking part in the revision session then we are creating a mailing list of parental email addresses to also send the resources to.

If you would like to be on the parental mailing list to receive the revision presentation, then please respond to statham@queenelizabeths.derbyshire.sch.uk with the name of your child, and the email address that you would like the resources to be sent to.

To complement these videos, we will also be holding live intervention sessions on a Tuesday from 4-4.50pm, via TEAMS. All students are invited to these sessions, but we will expect students who are significantly below their target to attend regularly.

Both sets of interventions will be starting week commencing Monday 9th November.

Yours faithfully

Mrs R Statham

Curriculum Leader of Mathematics
